A wide-angle photograph of a grand, multi-level indoor swimming pool. The architecture is a blend of modern and historical styles. The ceiling is a high, vaulted structure with exposed wooden beams and several large, dark, bowl-shaped pendant lights. Green vines are draped across the ceiling and upper levels. The walls are made of rough-hewn stone, and a large, classical-style mural is visible on the far wall. The pool is flanked by white, fluted columns, and the water reflects the lights and architecture. In the background, there are lounge areas with cushions and small palm trees.

SWIMMING POOL

With its soaring 30-meter-high ceilings, the magnificent swimming pool at Aliée Well+ transforms into a cozy haven during winter, where the warmth of the fire pits contrasts beautifully with the falling snow outside. In the summer, it becomes a shimmering paradise, basking in the sun’s rays. Relax in this unique sanctuary, enjoying the occasional water droplets on your neck or the refreshing coolness of your drink, as the surrounding beauty transports you to a dreamlike state.

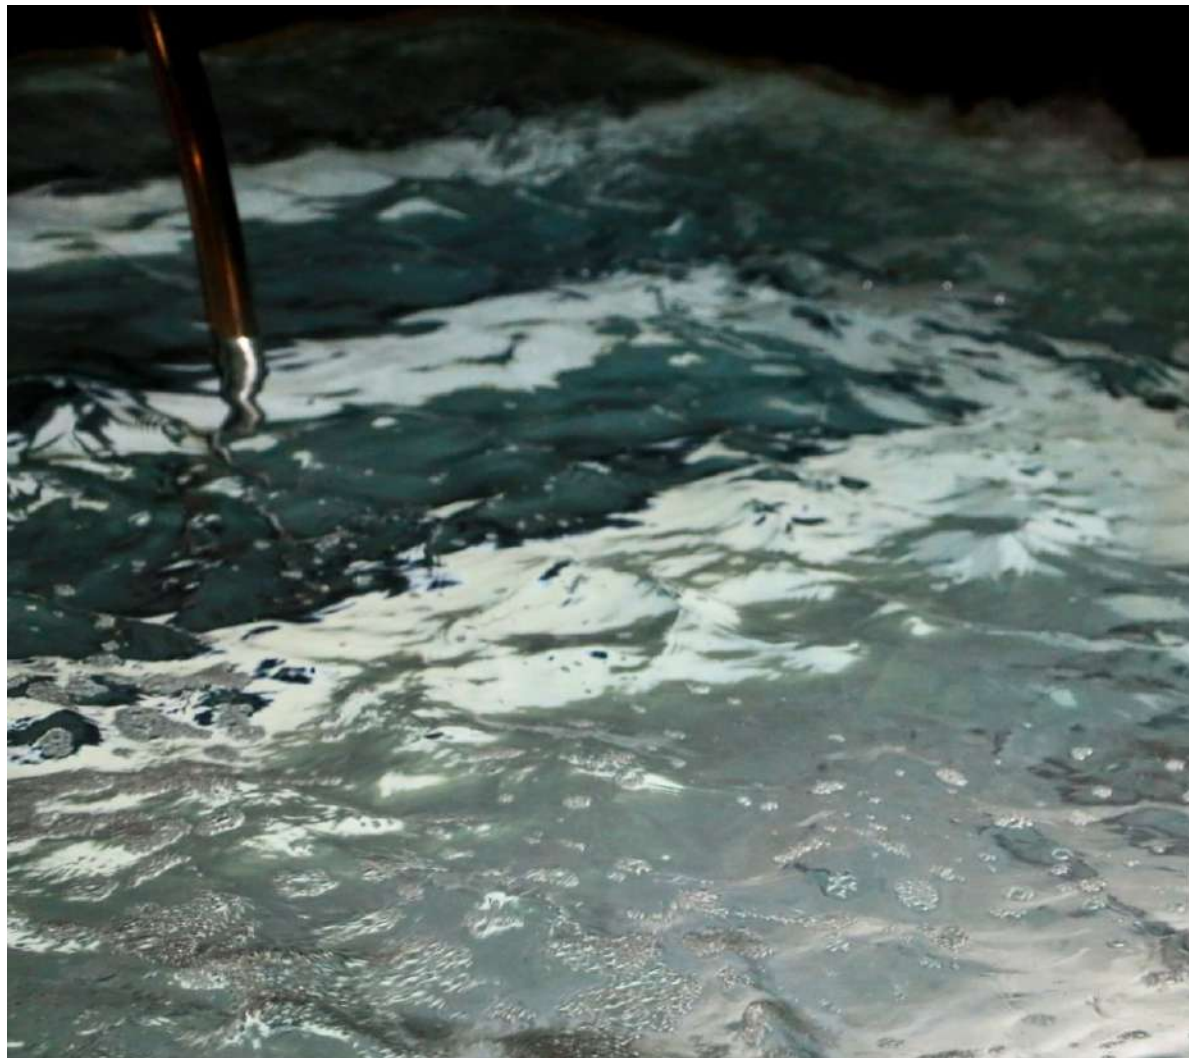

TURKISH BATH

Aliée Well+'s traditional Turkish bath offers an enchanting experience like no other. This magnificent structure seamlessly blends the grace of historic hammams with contemporary luxury, inviting guests on a singular journey of purification. Adorned

with marble floors and elegant details, our hammam chamber reflects echoes of the past while incorporating modern comforts. Here, body and soul find renewal in the enveloping warmth and humidity, traditional scrubbing and white soap foam massages leave guests feeling deeply purified and invigorated, melting away all traces of stress and tension.

SALT WALL

Aliée Well+'s salt wall is a distinctive space offering a natural remedy in a contemporary setting. This unique space features high-mineral salt, which elevates negative ion levels in the air, promoting peaceful breathing. The salt's antiseptic properties contribute to enhanced skin health and overall body purification.

Spa facilities | Heat Remedies

RUSSIAN BANYA

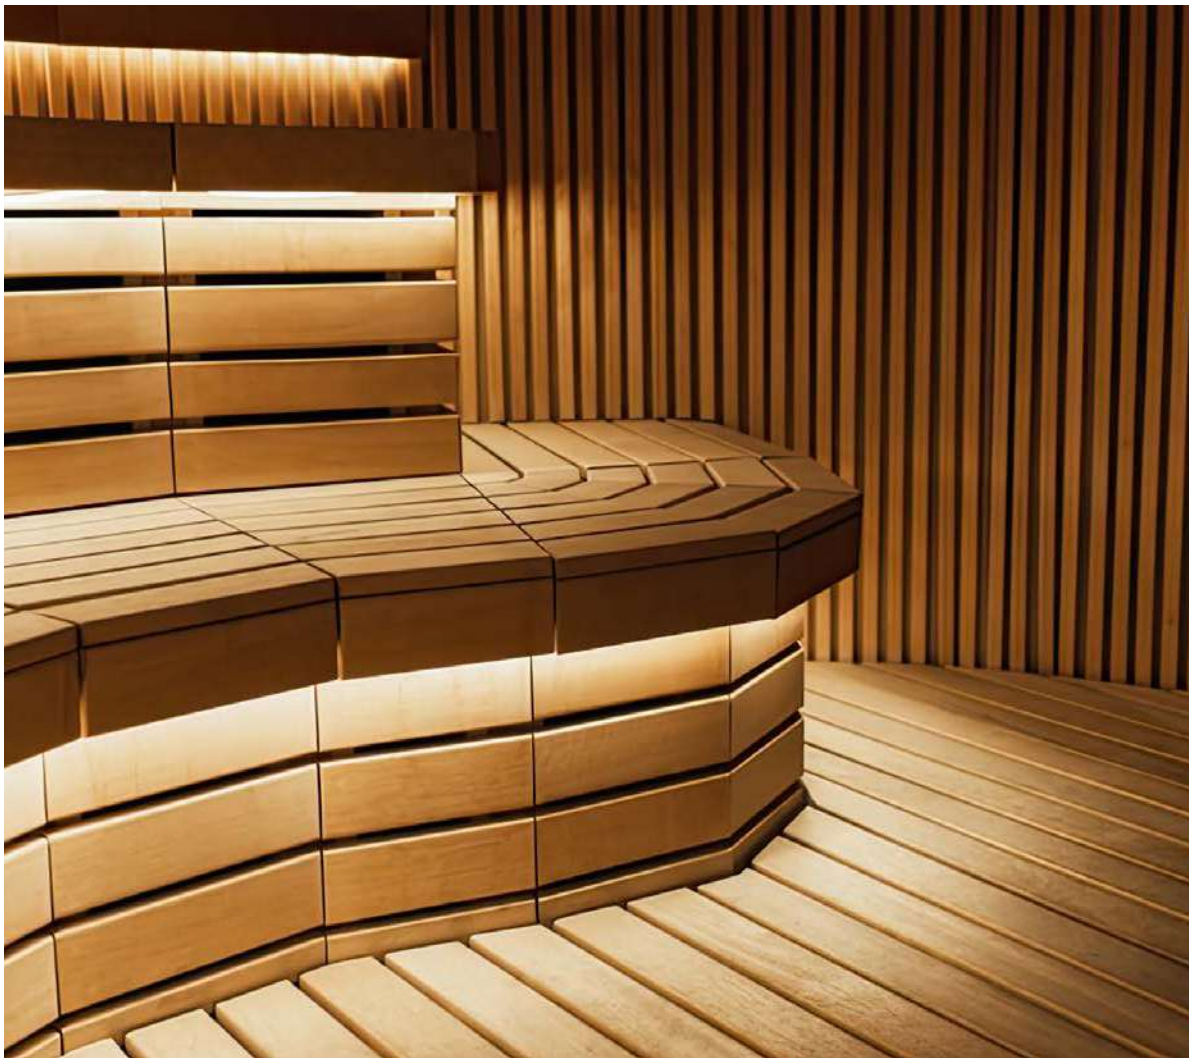

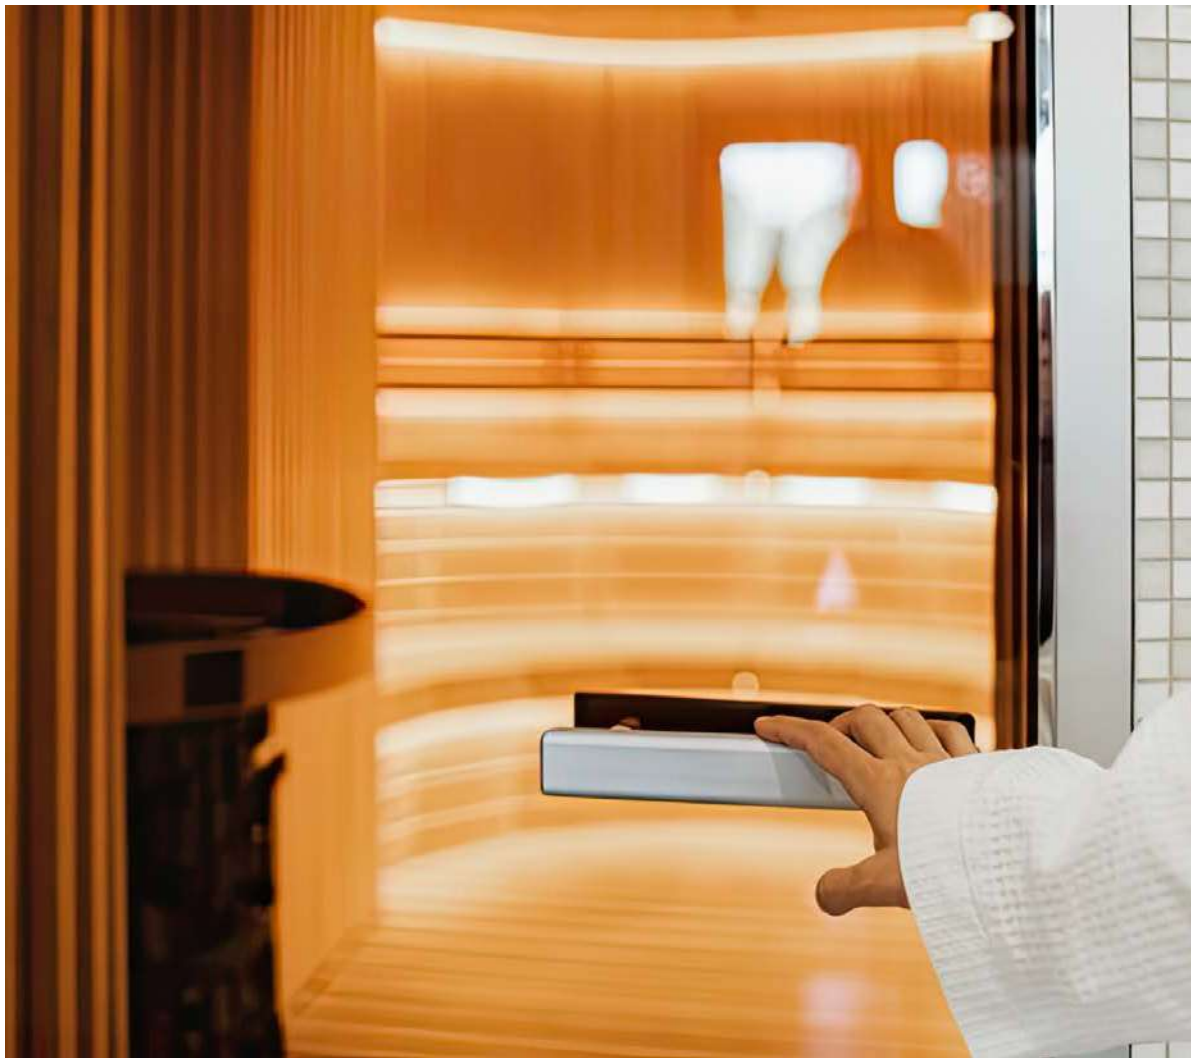

At Aliée Well+, the Russian Banya offers a remarkable sauna experience heated by a wood fire. This sauna type, deeply rooted in Russian tradition for millennia, is known for its high temperatures that prompt intense sweating, aiding in detoxification. The experience often includes a traditional Russian massage called "venik", involving rhythmic strokes with soaked branches, enhancing blood circulation, muscle relaxation, skin rejuvenation, and stress reduction. This massage may also benefit respiratory health and immune function.

INFRARED SAUNA

Relax into the healing warmth of Infrared Sauna, where deep penetrating heat promotes detoxification, eases pain, and stimulates circulation for a holistic boost to your well-being.

AUFGUSS SAUNA

In the simplest terms, Aufguss is a wellness experience in a sauna. The origins of the tradition can be traced back to countries such as Germany and Finland, where sauna culture is one of the oldest and most influential aspects of the society. During Aufguss shows, performed by an "Aufgussmeister", the trained specialist pours a special mixture of essential oils onto the hot stones of the sauna and makes rhythmic movements with a large towel to circulate the scented air. The sauna's heat is increased gradually, triggering the release of endorphins at its peak, ensuring profound physical and mental relaxation.

An aerial, high-angle view of a modern, multi-level fitness center. The space is characterized by large, multi-paned glass windows that allow natural light to flood the interior. The architecture features clean, white lines and a mix of materials, including light-colored wood flooring and dark metal railings. A central area is filled with various exercise equipment, including treadmills, ellipticals, and free weights, arranged in a structured layout. Large indoor plants are strategically placed throughout the space, adding a touch of nature. The overall atmosphere is bright, airy, and contemporary.
