"Faultless. Every want and need taken care of from the moment we arrived until we left. Fantastic setting right on the banks of the river with a raft of activities available at very reasonable prices. This was a treat of a few days as part of a larger holiday in Africa for us - wish we had allowed for more time there! Wildlife aplenty and some of the most amazing sights we've ever seen right on the doorstep."

WONDERFUL WILDLIFE

The destination of your wildest dreams!

The lush Chobe Riverfront supports abundant wildlife and the largest elephant population on the planet. Thanks to the glittering ebb and flow of the Chobe River, grassy floodplains also attract immense buffalo herds and healthy antelope herds, in turn sustaining sizable resident predator populations.

The Chobe National Park is home to over 420 bird species. Whether cruising the water or strolling our indigenous gardens, there are fantastic bird photography opportunities and many easy-to-identify species. This might be the easiest place to become a bird watcher!

The image shows the interior of a lodge with a rustic, natural aesthetic. In the foreground, a large, dark brown wicker sofa is partially visible, adorned with several light-colored, textured cushions. The sofa is positioned on a wooden floor. In the background, a large open space with a wooden ceiling and exposed beams leads to a view of a lush, green forest. The ceiling is made of dark wood, and several spherical, woven pendant lights hang from it, casting a warm glow. The overall atmosphere is cozy and inviting, with a strong connection to nature.

A TRAVELLERS FAVOURITE FOR DECADES

"Chobe Safari Lodge is simply amazing. From the incredibly warm and welcoming staff, the amazing food, the beautiful sunsets and abundant wildlife. This lodge is a must if you are considering a trip to Chobe and Kasane. Loved every minute!"

FANTASTIC FOOD

Enjoy every meal with a view!

A shaded riverfront terrace has plenty of tables for à la carte lunch or poolside nibbles beside the mighty Chobe River.

Chobe Safari Lodge serves scrumptious buffets for breakfast and dinner feasts from the central towering thatched dining room.

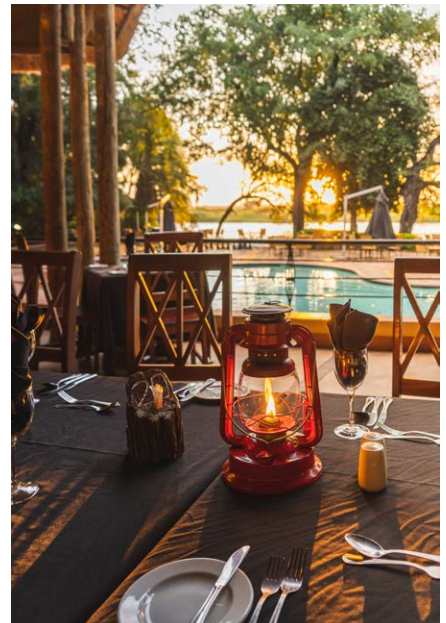

Chobe Bush Lodge offers a fine à la carte selection of dishes for breakfast and dinner, from local fish to flavourful pastas and brilliant Botswana steaks, followed by our famous cheesecake.

Enjoy a cappuccino at Chobe Bush Lodge. The quiet coffee bar is ideal for flicking through photos of the day's sightings.

Dinner cruises on the Chobe River provide a romantic lantern-lit alternative to eating in-house.

We cater to every diet. Dishes range from traditional beef stew and exotic barbecue plates (have you ever tried crocodile tail?) to wholesome, healthy vegetarian options and gluten-free alternatives.

Sip a sundowner at Sedudu Bar. Sip a cocktail (always served with eco-friendly straws) or order a local beer and admire the floodplains.
